

LINKAGES

Topics

LINKAGES' publications focus on the following topics: breastfeeding, related complementary feeding and maternal and dietary practices, the lactational amenorrhea method, and the prevention of mother-to-child transmission of HIV.

Audience

USAID, CAs, PVOs, local NGOs, Ministries of Health

LINKAGES Publications Series

- *Facts for Feeding* is a series of 4-8-page guidelines on recommended feeding and dietary practices to improve nutritional status at various points in the life cycle
- *Frequently Asked Questions - FAQ Sheets* is a series of 4-6-page publications with answers to questions on topics addressed by the LINKAGES Project
- *Technical Papers* provide state-of-the art information through in-depth analysis of global issues with significant policy and programmatic implications
- *Multimedia products* including a LAM Resource CD and a PowerPoint presentation on maternal nutrition with speakers' notes
- *Experience LINKAGES* shares LINKAGES' tools (training, policy, behavior change communication, M&E), models, and results
- *Breastfeeding &...* is a series of 2-page publications on LINKAGES' innovations in key technical and program areas
- *World LINKAGES* is a series of 4-page publications that describe LINKAGES' country program activities
